- Notes: 1. This is data in which some or all elements (nest attempts, eggs laid, and/or eggs hatched) were excluded. But all data included fledglings.
2. Counting all species, a total of 20,490 birds were fledged. Sixty-five percent of this total were bluebirds.
3. These boxes were distributed over 289 trails, which ranged in size from as few as one box to as many as 179.
