In some cases, the total numbers of birds of each species fledged are larger than the corresponding numbers of birds hatched. This is because in some counties, the numbers of eggs and birds hatched were under-reported. In cases where the numbers of eggs laid were underreported, the success rates are not presented.

Summary of VBS Data for 2002	
Bluebirds	8845
Chickadees	616
House Wrens	782
Tree Swallows	1635
All Species	11811
Total Nest Boxes	2230
Total Fledged per Box	5.3
